Representative offices in a perfect location in the Geneva banking district

This luxury building is located in a vibrant business district close to shops and restaurants.

At the foot of the building, you will find the Stand TPG tram and bus stop, and just a short walk away, Place de Bel-Air offers further great public transport options. Numerous bike spaces are available on the premises, and it's easy to find parking spaces for cars nearby, too.

You will be greeted by the building's beautiful lobby, which has recently been renovated.

We have available a splendid 600 m² of office space spanning the entire first and second floors of the building. These areas consist of an open-plan space, rooms of various sizes for use as individual and shared offices, and conference rooms. Each floor is equipped with a kitchenette and two bathroom blocks with two cubicles each.

This space can be adapted precisely to your needs and benefits from an air conditioning system and an unobstructed view. An initial area of 300 m² will be available on the second floor, and the whole area will be available from 1 July 2024.
